

Career Academy Funding & Donations

2015 Giving

Internships

Support students to experience their career interest.

Transportation

Help transport students for internship opportunities.

Attire & Materials

Ensure students have proper business attire.

Trips & Visits

Support opportunities for exposure.

Scholarships

Support students' future studies.

Interested in supporting our career academy students? Here's how you can help.

Internship compensation. Internships are 135 hours of opportunities for career academy students to work in a business environment associated with their career academy area of study. Internships may be compensated or uncompensated by the employer (employers may include business, companies, or community organizations).

Stipends for student interns are set amounts offered to students to complete work specified by the organization sponsoring the internship opportunity. All stipends provided through donations will go to internships supporting community based organizations and/or non-profits.

Transportation. Help support with subsidies for students to get to their internships with Metro SmartTrip cards and Gas cards.

Equipment/Material compensation. As an alternative to monetary compensation for internships, equipment or materials for students' continuing education needs can be provided. Examples of equipment compensation for internships may include iPads, Chromebooks, Surfaces, Laptops, or college registry item purchases.

Attire. Students need appropriate work attire for internships (may include ties, shoes, blazers, or skirts appropriate for business).

Trips & Visits. Support field trips to places associated with their studies, or to colleges to explore higher education options.

Scholarships. Types of scholarships may include book scholarships, tuition scholarships, or technology scholarships.
